

The Program Educational Objectives (PEO) in Ba Physics

- [PEO-1] : Producing Physical Science graduates who are able to apply physics principles in problem solving in their fields professionally, able to demonstrate professional attitudes, responsible, ethical, entrepreneurial, creative, anticipatory, adaptive, initiative and competent in carrying out tasks in the workplace so that they are able to compete in the era of industry 4.0 and social 5.0
- [PEO-2] : Producing high-quality regional, national and international research in the field of Physics (electronics and instrumentation, theoretical and material physics, medical physics, oceanography, and geophysics)
- [PEO-3] : Producing applications of Physics that contribute to solving real problems in society
- [PEO-4] : Increasing the number and quality of collaboration in the field of physics and its applications and expanding networks with educational institutions, government, professional organizations and industry, both nationally and internationally.
